

## Grupo Mercados Energéticos Consultores renews its corporate identity and reflects its sustainable vision

(Montevideo, December 17, 2021) - Grupo Mercados Energéticos Consultores is pleased to announce that "GME" will be the name that integrates the group's companies and that it will have a new visual identity. The evolution of the quality and comprehensiveness of our services and the transformation of the market require us to define a visual expression aligned with our differential characteristics.

The main objective of GME's new image is to reflect the evolution of the organization and its focus on sustainable energy development to contain the services of all the companies in the group and represent the spirit and history of the company. Based on knowledge and resilience, GME has provided comprehensive and efficient solutions to its clients for 28 years.

"This is a milestone for our company. We have analyzed our strategy and what our clients expect from us, and we have found the need to differentiate our services. We know that we can help create a more sustainable and inclusive energy future together with our customers", says Alejandro Arnau, GME's Chief Executive Officer.

#### **About GME:**

GME has been providing strategic consultancy services to companies and institutions in the global energy market for nearly three decades. Its interdisciplinary platform implements comprehensive solutions tailored to each type of client, at each link in the value chain.

With a team of more than 70 consultants specialized in technical, economic, financial and regulatory aspects, it operates from five companies with strategically located offices in Argentina, Brazil, Chile, Mexico, Peru, Uruguay and South Africa. This allows the company to manage more than 300 projects per year for the electricity, oil and gas, and water and sanitation sectors.
